TECHNICAL SKILLS

LANGUAGES

- Java JavaScript (ES6+) TypeScript
- Python SQL

FRAMEWORKS & STACK

- React.js Node.js Express.js
- Spring Boot MERN Stack

3D & WEB GRAPHICS

- Three.js WebGL GSAP WebXR

DATABASES & TOOLS

- MongoDB MySQL Git GitHub
- REST APIs

CORE COMPETENCIES

- Full-Stack Dev Architecture
- Agile / Scrum Collaboration

EDUCATION

- 2023 – 2026 (Expected)  
BSc (Hons) Software Engineering  
Cardiff Metropolitan University
- Completed  
Higher National Diploma (HND)  
Software Engineering  
ICBT Campus
- Completed  
Diploma in English  
British Way English Academy
- Secondary Education  
G.C.E. A/L & O/L  
Completed

CHANNA KAVISHKA SADARUWAN

FULL-STACK & SOFTWARE ENGINEER

PROFESSIONAL PROFILE

Final-year BSc (Hons) Software Engineering student with proven hands-on expertise in building scalable full-stack web applications, interactive 3D WebGL experiences, and robust enterprise backend systems. Proficient across modern JavaScript ecosystems (MERN Stack: React, Node.js, Express, MongoDB), interactive 3D graphics (Three.js, GSAP), and Java Spring Boot microservices with MySQL. Passionate about writing clean, maintainable code, optimizing API performance, and building intuitive user experiences. Actively seeking a Software Engineering Internship / Trainee role to contribute to high-impact development teams.

FEATURED PROJECTS

🍷 Café Nuwara

Live Demo ↗ GitHub ↗

JavaScript (ES6+), Three.js (WebGL), GSAP ScrollTrigger, Lenis, CSS3

Engineered an immersive 3D web platform for a gourmet burger café featuring WebGL entrance sequences, GSAP scroll-driven layer-by-layer burger anatomy animation, smooth Lenis scrolling, and 60 FPS mobile responsiveness.

🛋️ IFurnish Shop

Live Demo ↗ GitHub ↗

MERN Stack (MongoDB, Express.js, React.js, Node.js), Three.js, WebXR

Architected and deployed a full-stack furniture e-commerce web application featuring real-time 3D product customization, mobile WebXR AR room projection, persistent shopping cart, and Stripe payment checkout.

🎌 AnimeVerse

Live Demo ↗ GitHub ↗

React.js, Node.js, Express, REST APIs, TailwindCSS

Built an interactive anime exploration platform enabling users to search, discover, and filter thousands of titles dynamically. Integrated external REST APIs with client-side caching and responsive dark-mode styling.

🏨 Oceanview Reservation System

GitHub ↗

Java Spring Boot, MySQL, Hibernate, MVC Architecture

Developed an enterprise hotel & resort reservation system managing real-time room availability, guest check-in/out lifecycles, booking workflows, and normalized relational database persistence.

🛡️ HealthShield AI

GitHub ↗

Java Spring Boot, MySQL, RESTful Backend Services

Engineered a secure healthcare management backend service supporting electronic health records (EHR), patient data tracking, role-based access control, and database transaction integrity.

KEY STRENGTHS & COMPETENCIES

Full-Stack Architecture

React, Node, Spring Boot

3D Web & Interactive UI

Three.js, WebGL, GSAP

Database & REST APIs

MySQL, MongoDB & Security
